WORK EXPERIENCE

Software Engineer

ODEEF

March 2022 - Present

- Spearheading the development and optimization of donation, event, and volunteer management apps using the MERN stack.
- Enhanced app responsiveness by 25% and increased user engagement by 30% through performance improvements.
- Implemented DevOps practices, reducing development cycles by 20% and facilitating quicker feature releases.
- Demonstrated a 40% reduction in post-release bugs by maintaining rigorous testing and code review processes.
- Continuously driving innovation and staying current with emerging technologies to further enhance offerings.

Software Engineer

100DEVs

July 2021 - March 2022

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.

Front-End Web Developer

MYTHASTAR

February 2018 - June 2021

- Remotely contributed to the development of an innovative music interaction application, enabling seamless communication between music stars and fans.
- Collaborated closely with the development team to design and implement user-friendly features using JavaScript (jQuery) and HTML/CSS.
- Employed Agile/Scrum methodologies, conducted thorough testing, and actively participated in optimizing performance and ensuring high-quality standards throughout the software development life cycle.

EDUCATION

AS-Computer Science

NORTHERN VIRGINIA COMMUNITY COLLEGE

2014 - 2018
